The Operation is down to the simplest possible

The highlight of the design is the round water tank

The best result, freshly ground and freshly brewed

One Touch Function - Latte Macchiato in one touch

JURA ENA 8

small, stunning, simple. smart

The superlative new one-cup machine: small, simple, stunning – a must for all coffee lovers and connoisseurs. The ENA 8 impresses with speciality coffees that are freshly ground, not capsuled.

Ten different specialities are available at the touch of a button. The first VC compact brewing unit ensures that the coffee always flows into the cup under ideal conditions. The Pulse Extraction Process (P.E.P.®) optimizes the aroma of a short ristretto or espresso. Fine foam technology creates airy, feather-light milk foam for cappuccino or other specialities.

small

Only 27.1 cm wide, 32.3 cm high and 44.5 cm deep – this one-cup machine will comfortably fit anywhere.

stunning

A particular highlight of the design is the round water tank. Its pattern combined with its cylindrical shape is inspired by premium crystal carafes.

simple

The front 2.8" TFT display and the clearly defined operating panels make it extremely easy to use.

smart

RFID technology detects whether the new CLARIS Smart mini (30-litre capacity) or CLARIS Smart (50-litre capacity) is being used and adapts the settings automatically

freshly ground, not capsuled

The best result in the cup, freshly ground and freshly extracted every time, just the way you like it – these are the true defining qualities of the JURA ENA 8.
