JURA GIGA X8 BLACK

Built for maximum performance

The GIGA X8 allows JURA to demonstrate Swiss innovation and professionalism down to the very last detail. Anywhere where a capacity of up to 200 cups is the order of business, the machine impresses users with its quality, functionality and reliability. Coupled with top performance in every respect, this results in a high-tech automatic coffee machine which is ideally tailored to the requirements of office floor, seminar, catering and Coffee to Go solutions.

State-of-the-art technologies for perfect enjoyment

It's all inside the new GIGA X8: Two high-performance ceramic disc grinders guarantee reliable grinding results for many years which are sure to be precise, consistent and even. A top innovation provides that extra special something: A.G.A.© (Automatic Grinder Adjustment) – the electronically controlled automatic readjustment system. The Pulse Extraction Process (P.E.P.®) ensures the optimum extraction time for short specialities and delivers a taste explosion for ristretto and espresso. The GIGA X8 features a sophisticated height-adjustable dual spout, which finishes off trend specialities with milk and milk foam to perfection thanks to fine foam technology. The speed function ensures speciality coffees in record time. Increased power combined with the highest quality – that's the new GIGA X8. The concise, 4.3" high-resolution touchscreen colour display is both easy to understand and completely intuitive.

TÜV-certified hygiene guarantee

The maintenance of the new GIGA X8 is just as straightforward, logical and intuitive as its operation. Original JURA maintenance products and integrated rinsing and cleaning programmes ensure TÜV-certified hygiene at the touch of a button. The milk system is also very easy to clean. The fully automatic process is started with just a touch on the display and ensures perfect cleanliness.
